

THE FACE SHE SAW IN THE CIRCLE!

IF YOU were a young girl with Health, Beauty and Refinement, brought up in the best of homes, and suddenly felt an impulse to commit crime—What Would You Do?

IF THAT impulse came again and again and with it a strange and sinister birth-mark—the Ominous Red Circle, waxing and waning on your hand according as your thoughts were criminal or stainless—How Would You Feel?

IF YOU were a Doctor and were called in to help deliver into the world a child who you knew was born of a family criminal for generations, all of whose members were slaves to the ancestral taint, would you feel it to be right to let the infant live?
